I'm René Blank, doing agility since the mid 90ies and became a judge in 2004.

Since then I have judged hundreds of competitions and I'm still amazed how dynamic our beloved sport still is.

After judging many major events in different countries, topped by the AWC 2024 in Belgium, I feel incredibly honored to be invited for the second edition of the SOWAC in Portugal.

I was not really sure about the perception of this project in the beginning. But following the premiere I was totally overwhelmed by the atmosphere and spirit the teams have lived. I'm excited to provide courses which are mostly considered as a request to look for the best individual option to handle the strengths and weaknesses of the team.

I truly hope to see many friends from all over the world in Abrantes.

A special thank you goes to Jorge and his team who do a fantastic preparation to make this SOWAC a full success.

Thanks for having me!
